

Iridium 9505a Portable Docking Kit

(IDK-9505a - hardcase)
(ISC-9505a – softcase)

The Iridium Portable Docking Kit is for use with the Iridium 9505a satellite phone. Easily transported and installed, the Iridium Portable Docking Kit was designed so that users can enjoy the versatility of a portable satellite phone while also allowing for convenient use of satellite service in interior environments such as buildings, land vehicles, offshore vessels and platforms.

The Iridium Portable Docking Kit significantly increases reliability of the Iridium satellite service with an external antenna. The hands-free capabilities of the Iridium Portable Docking Kit let you drive in comfort and safety while using your Iridium phone. With the Digital Signal Processing technology, the voice quality and comfort of use have never been greater. The Iridium Portable Docking Kit has built-in capabilities to use all features of your Iridium phone and service such as voice communications, text messaging, data transfer, e-mail, voicemail and call holding/forwarding.

The Iridium Portable Docking Kit is available in two versions: hardcase (rugged case - Pelican 1400) and softcase (rugged ballistic nylon case).

The Hardcase (IDK-9505a) is based on this structural resin case is waterproof, dust-proof, and crushproof for maximum protection when transporting in any environment. This case features an automatic pressure relief valve and a lifetime warranty.

The Softcase (ISC-9505a) is designed to fit precisely within the rugged Pelican 1450 hard case. In effect a 'combo case,' this allows the SoftCase to be conveniently made waterproof and crushproof. This option allows the SoftCase to be safely checked as baggage or shipped with no additional container
