- [Please click here for a list of all Mackay PSA/AA flag states](#)
- Please contact our Satellite Services department should you need us to activate terminals for any other flag not mentioned in the above list.

### **PSA (Point of Service Activation) – Mackay Communications PSA 3057**

A flag authorized PSA handles all Inmarsat service functions, including activation, deactivation and updates of Inmarsat mobile terminals, and the issuance of Inmarsat Mobile Numbers (IMN). The PSA also informs flag authorities of new Sat C terminal activations and/or deactivations.

### **AA (Accounting Authority) – Mackay Communications AAIC US02 / CA04 – Canada**

An Accounting Authority is a company or telecommunication organization authorized by the flag administration for billing and settlement of radio communication services through Land Earth Stations between vessel, vessel shipping company and the coast station. Inmarsat equipment on board vessels that is part of a vessel's GMDSS (Global Maritime Distress and Safety System) configuration must always be registered with an Accounting Authority provider.
