We Keep Professional Mariners on the Move

When it comes to one-stop communications and navigation capabilities, the name to know is **Mackay Marine**. Mackay can manage your vessel's entire electronics investment through equipment sales, installation, service, regulatory inspections, comprehensive maintenance agreements, airtime and network applications. Mackay's goal is to understand your needs from start to finish.

For 130+ years, Mackay has served the marine and offshore industries. We are committed to delivering timely, cost-effective, quality solutions for your electronic equipment needs and to keep your marine electronics performing optimally. Mackay is the largest high-seas service company in North & Central America, with facilities in every major port, and 19+ locations in Asia, Europe and South America. **Mackay World Service** coordinates global service 24/7 to keep your vessels "on the move".

SPECIAL MACKAY PROGRAMS

Mackay World Service (MWS) dispatches marine equipment service worldwide, 24 hours/day. MWS will coordinate the most qualified and cost effective service for repair, maintenance, installations and inspections, through Mackay-owned 40+ global offices or with our network of 90 affiliated service agents. Mackay offers three levels of *Service, Repair and Maintenance Contracts* to keep your bridge electronics operating at optimum performance. *Customer Equipment Service Reports* and consolidated billing statements are also available.

Mackay Satellite Airtime: Mackay provides a comprehensive line of services, offering fast and unlimited access to the global switched terrestrial network at competitive rates. We offer satellite airtime for Inmarsat, Iridium, Globalstar & VSAT systems, with options for voice, fax, data & video conferencing services. Our consolidated monthly statements provide detailed vessel & terminal usage, with summaries for comparative analysis over time & across fleets.

New Build & Retrofit Projects: Mackay is a proven leader in the field of "turn-key" integrated electronics and communications systems. Ranging from a simple GMDSS station to a complete system with an integrated navigation bridge, satellite & internal comms, security components and below-deck systems. Mackay's *Project Integration Group* works with new-build, retrofit, and military/government integration projects to devise cost effective systems to meet their unique requirements and schedule.

Governmental and Regulatory Compliance: Working with over a hundred flag-states, we provide installation, licensing & publications, activation & commissioning, regulatory testing & certification, re-flagging & upgrade services for all navigation & communications equipment requirements. Mackay's customer information system tracks equipment servicing, enabling insight for scheduling required periodic inspections.

Mackay's

Full-Service Operations Saves You Money!

MACKAY'S COMMITMENT TO YOU

- **Responsiveness:** Mackay is a 24/7 worldwide maritime service dispatcher, with live-manned coordinators on 4 continents; providing rapid service schedule confirmation and prompt response to parts and equipment inquiries. Authority is delegated to the field level for quick decision-making and efficient processing to satisfy the customer's needs.
- **Prepared Service and Sales Personnel:** Mackay maintains a state-of-the-art database on all *Customers, Vessels and Equipment* we have sold or serviced. This enables our salespeople to offer appropriate recommendations and enhances repair diagnostics by Mackay's Service Technicians, prior to dispatch.
- **Quality Equipment Serving Multiple Sectors:** Mackay represents both leading and specialized manufacturers of electronic equipment for commercial marine, offshore, fishing, and passenger vessels; paired with a wide range of terrestrial communication applications.
- **Knowledgeable Technicians:** Mackay staffs over 150+ licensed Marine Service Engineers (MSE's), averaging fourteen years of field experience. Our MSE's regularly attend factory training and are supported by Service Managers, who average over 20 years of experience.
- **Strategic Locations:** Mackay has field offices in 40 strategic global ports (and growing) to expedite service and delivery and minimize travel expense. We will coordinate your domestic and international repairs, 24 hours a day, 365 days a year, through **Mackay World Service**.
- **Stock-On-Hand:** Mackay maintains and updates a multi-million dollar inventory of *Parts and Finished Goods* for immediate delivery.
- **Accurate, Clear Reporting:** Mackay service orders provide you with useful feedback, in an easy-to-read format, which can be consolidated into periodic, analytical reports.
