

For Immediate Release:

MetOcean Telematics Named the Sole Provider of Thales Terminals and Airtime to Mackay Communications Inc.

Dartmouth, NS, Canada (November 21, 2018) MetOcean Telematics has been awarded a global distribution agreement to become the sole provider of Thales LINK terminals, and Iridium Certus satellite airtime to Mackay Communications Inc. Mackay Communications Inc. (dba Mackay Marine) is a global leader in providing satellite communications and marine electronic solutions. This agreement will provide them with enterprise-grade broadband functionality and access to Iridium’s next-generation satellite network.

Thales VesseLINK and MissionLINK terminals provide global communications coverage, anywhere in the world. Unaffected by weather or landscape, they operate using Iridium Certus broadband services over a network of 66 satellites that cover 100% of the globe. The terminals utilize this robust network to provide highly reliable, mobile and essential voice, text and web communication for fixed sites and mobile users.

“This is the beginning of a synergized partnership moving forward and MetOcean Telematics is extremely pleased to offer this feature-rich solution to Mackay Communications’ global channel,” said Jonathan McArthur, Business Development Manager, MetOcean Telematics.

Mackay Communications Inc. was founded in 1884 and is based in Raleigh, North Carolina with sales and service locations in the United States, Latin America, Asia, Europe and Canada. They offer electronic products and services

to marine, offshore, and land-mobile industries, as well as commercial and governmental clients in North America and internationally.
