

BGAN Do's...

DO dial "00" + country code, and end with "#"
i.e. 0019198503100#.

DO make sure you are outside with a clear view to the satellite.

DO make sure your signal strength is at least 50 dBHz.

DO secure your Wi-Fi with a password to prevent unauthorized access.

DO test your BGAN at least once per month for data and voice functionality, and battery level.

DO enable the *Administrator Password* to prevent unauthorized changes to your settings.

DO keep your firmware updated, with new firmware at mackaysatellite.com/support.

...and Don'ts

DON'T stand directly in front of the BGAN antenna.

DON'T leave your BGAN unattended while in use, especially with an open STREAMING session.

DON'T let your battery fully discharge while in storage, which will decrease the useful life of the battery.

IRIDIUM Do's...

DO make sure you have a clear view for 360 degrees around you.

DO dial "00" + country code,
i.e. 001-919-850-3100

DO make sure the antenna is fully extended and pointed straight up when you talk.

DO test your phone monthly by calling 001-480-752-5105 free of charge.

DO ensure the battery remains charged.

...and Don'ts

DON'T forget your phone's PIN number, if you choose to set one.

DON'T use the phone inside a vehicle without the magnetic antenna.
